

SHARPSHOOTING Doug Anderson, Alec Fringle and Billy Maher led Flyers' free-wheeling attack in Calgary Wednesday night as the locals went into a 3-1 lead in the best-of-seven Allan Cup series with Ottawa Senators. The boys enjoy a well-earned "coke" after the fourth game.

20th CENTURY SCIENCE TO AID

25 Britons Will Search For Mythical Continent

LONDON, May 6.—(AP)—Twenty-five Britons are banking on 20th century radar and other modern equipment to help them find a "lost continent."

Led by Egberton Sykes, 53-year-old former diplomat, the expedition is searching for Atlantis, the "ideal country" which, Plato said, was somewhere west of Gibraltar before the Atlantic ocean covered it.

No one in the party, which includes writers, scientists and plain lovers of adventure, believe they will ever be able to visit Atlantis, even should they rediscover it. They estimate the land to be two miles under the surface of the ocean.

If Atlantis ever did exist, said water covered it about 10,000 years ago. Sykes and his associates believe.

Sykes, who says his fellow-believers in Atlantis are scattered all over the world, wants especially to find a United States pilot who, it was reported, said during the war he had seen buildings under the sea when making a flight over the spot where Sykes believes Atlantis should be.

Stamp To Denote Century Of Peace

Murder Trial Delayed As Writing Ruled Out

CALGARY, May 6.—(CP)—Samples of Bernice Dubensky's handwriting taken on the night she was arrested for the June 25 murder of Chinese tailor Mah Kuo Wing, were ruled inadmissible as evidence in supreme court yesterday.

However, court ruled that seven sheets of letters allegedly written by the 20-year-old woman, were admissible. Legal arguments over the admissibility of the evidence occupied the major portion of the court's sitting yesterday in the charge of murder against Miss Dubensky.

Britons See Ray Of Mealtime Joy

Freed of Potato Rationing Now Look for More Bread

By James McCook

LONDON, May 6.—(CP)—Britons, freed of potato rationing last week, looked confidently today toward further easement in their mealtime austerity.

These developments buttressed their optimism:

1. Announcement of the United States' decision to authorize the purchase in Canada for the United Kingdom of \$33,500,000 worth of wheat, flour and bacon gave assurance that supplies essential to maintain basic rations will keep moving.

2. Anticipation in informed circles that bread rationing soon will be relaxed or removed as a result of the prospective financing of Canadian supplies. Bread is rationed on the basis of nine ounces a head a day.

(Significantly, H. Marriott, chairman of the Co-Operative Trade Association, said in Edinburgh: "We have had assurances from certain quarters from which we hope that bread rationing will be before the end of the summer holidays.")

3. Householders have found eggs recently more plentiful than at any time since the end of the war. Individuals so far this year have reported about five eggs Wednesday afternoon and night and the McLeod began to run free of ice.

The Athabasca, however, spread over considerable farm land east of the town and six families are still unable to return to their homes. The Athabasca river has risen as much as 12 feet in some places, but residents of the town feel the worst part of the flood is over.

In Manitoba, however, floods continued their furious assault at localities along the banks of the Assiniboine and Minnedosa rivers were hard hit.

Today Brandon residents were preparing feverishly for the flood. Last week 200 families evacuated their homes in low-lying sections of the city when the Assiniboine first peak swept through.

The waters of the Minnedosa, which Tuesday broke through a dike, Wednesday reached Rapid City, about 25 miles south of Winnipeg, hiding the highway under two feet of water. The water is racing towards the Assiniboine 15 miles from south.

At Winnipeg conditions were better today than they had been for two weeks. The Red River was continuing its recession and the Assiniboine, although dangerous at Brandon, was causing a minimum of flooding.

In southern Alberta, floods were under control, with highways open and ground drying under a warm sun.

Floods were reported receding in northern Saskatchewan's Carleton Place valley, 90 miles east of Prince Albert, although more than 30 people still were marooned at the Two Rivers Bible Institute after water had inundated their homes.

At Wetaskiwin, one of the hardest hit centres in Alberta, flood waters continued to recede rapidly today and no further trouble is expected. Several families are still unable to return to their homes, however, although water has been pumped out of most basements.

Loss is expected to run into several thousands of dollars in Northern Alberta Railways, which had experienced several washouts.

Seed Grain Losses Heavy In Floods

(Continued from Page 1)

be obtained, all will be taken to neighboring homes.

Here too, more than 20 farmers have lost everything they grow.

The sturgeon river, just north of the city also continued to rise today and was more than 15 feet above its normal level near Nampo. Here the bridge is under more than two feet of water and the approaches are covered by about three feet of the flooding waters.

Two miles west of Nampo the flooding Sturgeon has forced two farm families to evacuate their homes, but no loss of grain or stock have been reported.

At St. Albert, the approaches to the highway bridge were underwater and one family has had to leave its home.

WHITECOURT BETTER

At Whitecourt, the situation was steadily improving as the Beaver and McLeod rivers began to recede. The water level of the Beaver dropped about five feet Wednesday afternoon and night and the McLeod began to run free of ice.

The Athabasca, however, spread over considerable farm land east of the town and six families are still unable to return to their homes. The Athabasca river has risen as much as 12 feet in some places, but residents of the town feel the worst part of the flood is over.

Sympathy Strikes Barred By Code

(Continued from Page One)

committee deferred action was one declaring no strike could be held until a union had been designated as a bargaining agent in a plant.

Mitchell defended a clause saying any employee might present a grievance to his employer personally.

Controversy developed over a provision to bar lawyers from appearing before a conciliation board except with the consent of all parties.

Cecil Merritt (PC—Vancouver Burrard), a barrister, led the attack on the section. It was a "direct, gross and unwarranted discrimination" against a single group.

TOP LABOR ADVOCATES

A. L. Smith (PC—Calgary West) also a lawyer, joined in the objection. Some years ago, he said, unions had needed this protection because they could not afford top lawyers. Those days were gone now. Further, labor itself had developed "the best set of professional advocates I know."

WOMAN WON'T COLLECT TAX

WASHINGTON, May 6.—(AP)—Treasury Secretary John Snyder said yesterday the treasury will use "all resources" to see that Miss Vivien Kellens pays the government without delay taxes for the 100 employees of her Westport, Conn., manufacturing plant.

Miss Kellens wrote Snyder last week that she considers it unconstitutional to require employers to collect withholding taxes and that she is "deliberately violating this law."

Snyder added: "Please indicate how you will pay the taxes."

She received 34 eggs each, compared with \$3 for all of 1947.

MORE HOME PRODUCTION

Continued shipments from Canada and increased imports from Europe and other sources plus improved home production made this possible. The higher level of distribution is expected to continue.

4. The butter ration has been increased from three to four ounces weekly and the margarine ration one ounce to three. This temporary change was made possible by increased milk production, normal in springtime.

The food ministry had nothing to say about the possibility of relaxed bread rationing in line with its policy of never anticipating announcements on changes.

Some sources said there was a possibility that bread rationing might be maintained for a time even with stocks safe and further supplies assured. This would give the ministry an opportunity to reduce the flour-extraction rate from 85 to 80 per cent and give Britons a whiter loaf.

A reduced extraction rate would leave more grain by-products available for feed. It would permit farmers to enlarge their livestock herds and produce more milk, an increased contribution to food supplies.

But Less Marge

LONDON, May 6.—(Reuters)—Britons are to get one ounce more butter a week from May 23, but one ounce less margarine. The adjustment of the combined ration—which remains unaltered at nine ounces on an alternate basis—weeks—is only temporary, the food ministry announced yesterday. The average weekly butter ration thus increases to four ounces.

Senate Committee Adopts Bill to Aid Gold Mines

OTTAWA, May 6.—(CP)—The Emergency Gold Mining Assistance Act was recommended for adoption today by the senate committee on natural resources. It now will go before the whole senate for third reading.

Dr. W. C. Clark, deputy finance minister, said the bill proposes to subsidize Canadian gold mining where production costs are high. Rising costs had tended to hamper production, threatened mine closures, and brought serious hardship in mining communities.

Legislation already in effect allowing new mines tax-free production for three years. The new legislation also covers a three-year period.

"It is a form of assistance which will keep mines open, and see to the development and opening of new mines," said Dr. Clark. The bill would be of most help to low-grade and remote mines where costs were high.

PRECARIOUS CONDITION
W. B. Timm of the Mines and Resources Department said the gold-mining industry found itself in "a very precarious position." Production costs between 1939 and 1946 had risen from \$15 or \$16 an ounce to \$26 or \$27.

"In view of high costs, gold mines were getting into difficulties and were closing down," he said. Senator J. G. Turgeon (L—British Columbia) said the Assistance Act bonus would make companies build on a permanent basis, hoping for a better future.

Senator T. A. Crerar (L—Manitoba) said the legislation probably would restore to activity some mines which are on the point of closing down, but he expressed doubt whether many companies will take the chance of developing new mines.

Senator J. T. Haig (PC—Manitoba) said he doubts that three years is long enough "to do the job successfully." Costs would not be down in three years. Five years would be better.

Senator Crerar said he had heard that some mining companies wish to see the return of a free gold market. "If we did allow a free market for gold, it wouldn't be in accordance with our obligations under the International Monetary Fund," said Dr. Clark.

Palestine Mail Arrangements Made
LAKE SUCCESS, N.Y., May 6.—(CP)—The United Nations said yesterday it had reached an agreement with the Italian Chamber of Shipping to handle mail to and from Palestine.

The arrangement is subject to approval by the United Nations Union, a world-wide body which controls, through agreements and treaties, the handling of mail between countries.

At present there is no mail service into or out of Palestine.

ALIENATION OF AFFECTION SUIT

Love You've Never Had Can't Be Lost—Judge

MONTREAL, May 6.—(CP)—Because Henri Harbec's marriage to Marie Paule Tremblay was a pure "marriage of convenience" with no love on either side, the husband could not sue his wife's affections for her new husband. The judge decided in a superior court judgment yesterday.

He dismissed a \$5,000 action for alienation of affections against Leon Lextrin, former business partner of Harbec.

The judge ruled that there was no evidence that Harbec's life was due to any

attempt of Lextrin to alienate the wife's affections.

When the marriage took place in 1942, his Lordship recalled, Harbec was a widower with one child and was aged 45. His wife was 25. This, said his Lordship, was a marriage of convenience. The husband wanted a companion who would look after his home and child and the wife was tired of working for a living and hoped to find the security of a home.

"In these circumstances," said his Lordship, "the inevitable happened. After much disagreement and many quarrels the wife, unfortunately, sought rephren-

Dominions' Meet Soon as Possible

Plans Only in Tentative Stage—Many Difficulties

LONDON, May 6.—(Reuters)—The commonwealth conference which Prime Minister Attlee assured parliament last night would be held as soon as possible involves so many practical difficulties that a considerable time may pass before it can be arranged.

The conference, possibility of which was recently suggested by Prime Minister Churchill in the Australian parliament, can only be held if Canada, Australia, New Zealand, South Africa, India and Pakistan are able and willing to take part. These Dominions have an equal voice with Britain in the summoning of such a conference.

It is believed that the proposal mentioned by Attlee is at the most tentative stage so far. Australia and New Zealand, according to such indications as are available here, might welcome an early meeting.

On the other hand, with their urgent domestic preoccupation following the transfer of power, it might be difficult for India and Pakistan to take part at the moment. The reaction of Canada and South Africa also would have to be tested.

CONFERENCE DESIRABLE
It is believed that in Commonwealth quarters generally there is recognition that an early conference is desirable in the absence of actual crisis.

At Ottawa, high officials of the external affairs department declined to comment on the suggestion of a Commonwealth conference. So far as could be learned, there have been no direct negotiations which would indicate a likelihood of such a conference being held in the near future.

Soviet Colonel Seeks Refuge in Britain

LONDON, May 6.—(AP)—Russian Col. J. D. Tassejev, who fled his repatriation job in Germany, is receiving asylum here as a political refugee.

The Foreign Office, announcing this today, said Tassejev voluntarily gave up his Soviet citizenship and decided to seek shelter in Britain. Shortly after the colonel disappeared from his post in Bremen, Russia charged that he had been kidnapped by the United States.

NOBODY TOLD THESE PIGEONS WHICH HOME

TORQUAY, Sask., May 6.—(CP)—E. W. Tayton looked at his watch and looked at the sky. In exactly 10 minutes—according to his calculations and the wagers he had made with friends—his two English pouter pigeons would come winging out of the sky from Outram, eight miles away from this southern Saskatchewan village.

Ten minutes later—no pigeons.

A few days later he got a letter from the pigeons' former owner in London, Ont. The birds had flown from Outram to London in two days flat.

Howe Outlines Dominion's New Rental Insurance Plan

By D'Arcy O'Donnell

OTTAWA, May 6.—(CP)—A rental insurance plan, guaranteeing builders a return on their investment and income to meet their major costs, was outlined yesterday in the Commons by Trade Minister Howe.

The plan is aimed at encouraging the building of homes for rent, but Howe immediately quashed any hope that it will bring a substantial increase in the amount of low-rent housing.

Under the plan, the owner—whether he is the builder or a

subsequent purchaser—will be guaranteed enough income to look after taxes, debt services, operating expenses, repairs, renewals and replacements. He will also be guaranteed a two per cent return on equity investment. The guarantee will be for the first three years.

\$FAMILY MINIMUM

The insurance will be limited to family units renting at not more than \$80 a month on a fully-serviced basis. Unserved units will carry lower rental maximums.

The insurance will apply to projects consisting of eight or more family units. It will not, apply to projects which average less than 1½ bedrooms per unit.

The owner will pay a premium for his rental insurance, at a rate to be set by the cabinet.

Loans up to 85 per cent of the estimated cost of the rental-housing project will be advanced either by the government or by private lending institutions.

"We are not sure of the amount of new rental housing which will result from this proposal," said Howe. "We hope it will be substantial, and every effort will be made to encourage builders to operate under its provisions."

He expressed belief few houses can be built at present for less than \$35 a month or less, without "sub-

stantial capital subsidies or contributions to rent reduction funds."

"Because of very high construction costs and because the building industry now is working at capacity, I do not think that the present is an opportune time to attempt initial steps into the low rental housing field."

"Certainly at this time I am not prepared to recommend capital subsidies or contributions to a rent-reduction fund by the Dominion."

When Howe completed his statement, Cecil Merritt, (PC-Vancouver Burrard) said there should be a program of subsidized housing with contributions from Dominion, provincial and municipal governments. Merritt said the Liberal government is quelling its leadership in the housing field before the country's problem is solved. It appeared some of the government's policies had failed.

"PUNY, RIDICULOUS"
A short time ago Howe had said at Vancouver that responsibility for launching a low-rental housing project rested with the provinces. The opposition could not agree with that view. The government was trying to "abdicate" its responsibility.

Merritt described the measures now being introduced as "puny," "entirely inadequate" and "quite ridiculous."

The plan would not provide a single housing unit for persons with low incomes. In Vancouver alone there were more than 6,000 veterans seeking low-rent housing. The new plan would be "just as inadequate" for them as other plans in the past.

Gov.-Gen. Opens Road In Whirl of Activity

LETHBRIDGE, Alta., May 6.—(CP)—Governor-General and Lady Alexander last night completed a whirl-wind of activity in the Lethbridge District and resumed their trip to the west coast.

In one of the busiest days of his tour of Western Canada Viscount Alexander officiated at the opening of the Courts-Lethbridge highway at ceremonies on the international boundary; invested eight southern Alberta medal winners and appeared at two banquets.

Opening the highway, His Excellency was aided by Col. John S. Chennault, commanding officer of the United States army air force base at Great Falls, Mont.

An honor guard from the 18th field regiment at Lethbridge and the city's army cadets were inspected while the Lethbridge Boys' Band

played national anthems of both Canada and the United States.

HISTORIC OCCASION

In a brief speech Lord Alexander said "as we stand gathered at the border for this ceremony, I feel it is an historic occasion of which we may all be proud. During the war he had commanded both Canadian and American soldiers in the field and he commended the way the countries had "forcibly manifested their brotherhood" in war and peace.

The Dominion government was represented by Senator W. A. Buchanan of Lethbridge while Provincial Secretary A. J. Hooke represented Alberta.

Britain Can Now Meet Food Pacts

Payments From ERP Funds Insures Canada Agreements

By R. K. Carnegie

OTTAWA, May 6.—(CP)—Payment for Canadian food shipments to Britain out of European Recovery Program funds ensures that Britain can live up to her food agreements with Canada, Agriculture Minister Gardiner said last night.

He was commenting, in an interview, on news from Washington that \$33,500,000 worth of ERP money has been released to pay for wheat, flour and bacon which Canada is sending to the Old Country.

"The announcement will have no direct effect on our food shipments to Britain," Gardiner said. "We shall continue to ship and Britain will continue to pay as she has been doing since the start of the year. This will make certain, however, that Britain will be able to get the American dollars to meet her commitments."

"We have been confident she would, all along."

NOT DIRECT HERE

Experts here said the ERP money will go to the British dollar pool and not come directly to Canada from Washington. While \$33,500,000 is a small amount compared with total British purchases in Canada—which run around \$20,000,000 a month for wheat and wheat flour and more than \$5,000,000 a month for bacon—Britain is able to offset these purchases to a considerable extent by sales of her own products to Canada.

Canada also has undertaken to supply Britain with 80,000,000 dozen eggs at about 50 cents a dozen; 50,000,000 pounds of cheese at 30 cents; and some meat, which is not covered by the Washington announcement. However, Britain will continue to

Belgian Govt. Quits On School Issue

BRUSSELS, May 6.—(Reuters)—Resignation of Premier Paul-Henri Spaak's Belgian coalition cabinet was accepted yesterday by Prince Regent Charles who immediately asked that the government stay on as caretakers.

Circles close to the Premier said he decided to resign rather than face the possibility of an open split in his own Socialist party forces in the government.

The resignation of the cabinet followed this morning's rejection by the Socialist parliamentary group of a proposal, supported by the premier, for greater subsidies to Catholic schools, a 75-year-old controversy in Belgian politics.

accept these shipments and make her own provision to pay for them, it was stated here.

One official in Ottawa said it would be wrong to assume that the United States will underwrite all the Canadian food contracts with Britain. ERP is prevented, by law, from buying outside the United States any foods that are surplus in that country.

The total amount of ERP purchases in Canada can only be guessed. One suggestion has been that they will amount to \$16,000,000 within the next 15 months.

NO CRITICISM OF GOVT. ABROAD

LONDON, May 6.—(AP)—Winston Churchill's advice to Conservatives leaving for the United States, as reported by Col. J. R. H. Hutchinson, MP, a recent traveller:

"When you get there, you have to forget this 'blank' Socialist government of Great Britain. It is the government of Britain, and you do not criticize it."

"But when you get back—

Alabama Governor Weds—Suit Pending

ROCKFORD, Ala., May 6.—(AP)—Alabama's governor, James Folsom, who recently was named defendant in a paternity suit charging he is the father of a two-year-old boy, was married here yesterday to 21-year-old Jamie Moore.

The 39-year-old governor met his new wife while campaigning for governor in the spring of 1946. The pretty brunette had been employed as a secretary in the state highway department for several months.

The six foot, eight inch governor had been a widower since the death of his first wife in 1944.

Folsom received prominence recently when he announced himself a candidate for the United States presidency. Shortly thereafter a paternity suit was filed by an attractive red-haired divorcee, Mrs. Christine Putnam Johnston, who asked the courts to declare Folsom the father of her two-year-old son. The suit is pending.

Postage On Parcels Cannot Be Reduced

OTTAWA, May 6.—(CP)—Postmaster-General Bertrand told the Commons yesterday that the government cannot reduce the postage rate on food parcels mailed overseas. He said the government has examined this question a number of times but has found it impossible to cut the rate.

Packers Must Tell Why Storage Meat Price Up

OTTAWA, May 6.—(CP)—Chairman Paul Martin told the prices committee yesterday that the meat industry must explain why cold-storage holdings of meat have risen sharply at the same time as prices went up.

"I feel that this is the crux of the problem," said Martin. "I may be wrong but these figures have to be explained."

The committee had just received a Bureau of Statistics report that cold-storage holdings of beef are more than double last year's level and that pork holdings are almost double.

"If slaughtering are up and cold storage holdings are up, you would expect prices to go down instead of up," Ross Thatcher (CCF—Moose Jaw) said. "If the reason isn't that it's being held for the United Kingdom, it would look like hoarding to me."

Robert McCubbin (L—Middlesex West) expressed belief Thatcher's answer would be found in increased consumer demand.

Douglas Harkness (PC—Calgary East) said: "The fact that you have a lot of meat in storage does not mean there's a plentiful supply of live cattle."

Damage to highways and bridges has been officially estimated at \$1,000,000.

Premier Douglas Orders Survey Of Flood Damage

REGINA, May 6.—(CP)—Premier L. C. Douglas yesterday ordered a province-wide survey of flood damage to roads and bridges. When a complete picture of the damage had been obtained, the government would decide what assistance it could give to hard-hit districts, he said.

"It's going to be a terrific job to put the roads and highways in shape in time to help farmers with their spring operations."

It was possible that the government might have to postpone part of its 1948 highway program to do repair work.

Damage to highways and bridges has been officially estimated at \$1,000,000.

Senate Rejects Oleo Ban Removal

Upper House Votes Against Bill Third Successive Year

OTTAWA, May 6.—(CP)—The senate voted 35 to 21 yesterday against lifting the ban on margarine. It was the third defeat in three years for a bill sponsored by Senator W. D. Euler (Ontario) to end the 62-year-old prohibition on importation, manufacture and sale of the butter substitute.

The same bill was rejected by 43 votes to 18 in 1947, and 38 to 22 in 1947. Identical legislation, introduced in the commons by James Sinclair (L—Vancouver, North) may be put to a vote on second reading in two or three weeks.

Yesterday's division came after months of debate. It saw 17 Liberals and four Progressive Conservatives vote for margarine; 28 Liberals and seven Progressive Conservatives against it.

In a 35-minute speech immediately before the division, Senator Euler said:

"I believe the senate of Canada is in a measure on trial today, not because of the principle of a democratic right—the right to free choice, free enterprise, free competition... but because of the action of the people will be unfortunate and regrettable."

Canadian agriculture could produce all the margarine Canada needs, he said, and it would cost no more than 40 cents a pound. Senator Euler rejected a suggestion by Senator Ian MacKenzie (L—British Columbia) that the bill be withdrawn pending thorough study of all phases of the margarine question.

The ban on margarine is contained in the Dairy Industry Act, passed in 1886. Except for a six-year period the end of the First World War, the prohibition has been maintained. It was relaxed at that time

HAD \$1,200 BUT WANTED NICKEL

MEDFORD, Mass., May 6.—(AP)—Eleven-year-old Freddie Doherty found a woman's pocket book containing \$1,200—but rather than touch the money he borrowed a nickel from his brother to call the police.

Freddie couldn't understand all the compliments coming his way today and refused a reward. Mrs. Mary Thomann, owner of the purse, said she was sending him a bike anyway.

"Well, okay," said Freddie, "but I'm giving it to my brother, John."

Hutterites May Lose Holdings

Legislative technicality may decrease the amount of land owned by Southern Alberta Hutterites. Two colonies of the religious sect have had their land expropriated by the government as part of the lands which will be under water on completion of the St. Mary's-Milk River irrigation project. The colonies are near Cayley.

One colony formerly held 1,800 acres of land. About 1,000 acres have been expropriated and the government is prepared to grant the colony an equivalent area. But this equivalent area will not be connected with the remaining 800 acres.

Government can't give the Hutterites 1,800 acres of land all in one piece, because existing legislation states that the Hutterites may buy areas of land "equal in area to that which has been expropriated." That means 1,000 acres only.

The colony, the Raley colony of 95 "souls" as the Hutterites term their members, is seeking to trade their 800 acres with another, the Hoffer colony of 10 "souls." The Hoffer colony has 800 acres expropriated by the government, and is willing to take the 800 acres left of the original Raley land.

At present, the provincial government is checking legislation to see if this is legal.

Railroads May Seek Another Rate Boost

By John Leblanc
OTTAWA, May 6.—(CP)—A new railway application this year for further freight-rate increases is a distinct probability, authoritative sources said today.

However, it was emphasized that the railways, which received a 21-per-cent general increase last month, likely will not make that move until autumn.

The one thing that could halt such an application would be federal subsidization of railway losses, at asked last week by premiers of seven provinces.

A highly-placed informant said today this possibility should not be ruled out entirely, though until now the government has not reached a decision on the request of the maritime and western provinces. These provinces want a subsidy instead of rate increases, pending a rail commission investigation into the whole railway problem.

WAGE DEMANDS RESPONSIBLE
Chief impetus to the railway demand for still more revenue is likely to develop from the decision of 18 international railway unions to call a strike vote of their Canadian employees to enforce claims for higher pay.

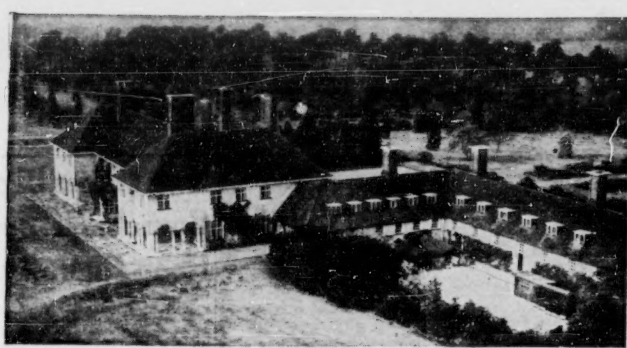

The unions have asked a 35-cent-an-hour increase and have rejected the recommendation of a federal arbitration board for a seven-cent hike.

Even the seven-cent raise, it is estimated, would add about \$27,000,000 to the operating costs of the two lines. However, the view here is that the companies and

Shortage Of Steel Closing Car Plant

DETROIT, May 6.—(AP)—With 75,000 Chrysler Corporation production workers completing plans for a May 12 strike, the auto firm ran into more trouble yesterday. A steel shortage affected its assembly lines. It announced about 10,000 workers in its Dodge, De Soto and Chrysler plants will be laid off for four days, effective Friday. Some 2,500 Plymouth division workers were laid off Monday because of the steel situation.

At Windsor, Ont., Chrysler Corporation of Canada will lay off approximately 1,800 employees in its passenger-car plant Friday night until May 17, E. C. Row, vice-president and general manager, announced today.

Keeping Balls Found on Links Declared Theft

LONDON, May 6.—(CP)—In a decision that could have far-reaching effects, the King's Bench divisional court has ruled that anyone finding a lost golf ball on a golf course and keeping it is guilty of theft.

The point was raised when Harold Hibbert appealed against the decision of Stockport magistrates who found him guilty of larceny of eight golf balls abandoned as lost by players on Reddish Vale links. They ruled he had found and retained the balls while trespassing there.

In dismissing the appeal with costs Lord Goddard, the Lord Chief Justice, said he and his fellow justices were of the opinion that Hibbert stole the balls. He was not an honest man who proclaimed his find with a view to discovering the owner of the balls.

On every golf course, the Lord Chief Justice said, golf balls must be found from time to time to be retrieved when the grass is cut or someone has the time to look them up. But there was no licence from the club for all and sundry to come and take what they could find on the course.

REGARDLESS OF HOW the hitter bats he gets no break from Kenneth Thompson, who throws equally well with his right or left hand, and switches with the batter, throwing right-handed to a right-hand hitter and left-handed to a left. The 16-year-old ambidextrous ace of Windsor, N.C., High this spring has yielded only five hits in 18 innings.

Richards Rests On 44th Birthday
LONDON, May 6.—(AP)—Jockey Gordon Richards, who has ridden more winners than any other horse pilot in the world, observed his 44th birthday Wednesday by taking it easy.

There was no flat racing in Britain anyway, so none of his rivals for honors this season made up any lengths.

NEW YORK, May 6.—

Pittsburgh Pirates—the team everybody forgot in the pre-season betting—are away and winging in the National League.

Everyone said the Bucs consisted of Ralph Kiner, a bunch of veterans on the downgrade and one or two promising youngsters who might come through to lift the club to fifth place or so.

Wednesday the Pirates tackled a fifth game onto their current winning streak and took over sole possession of first place, a game ahead of the New York Giants.

Elmer Riddle and Kirby Higbe, both untried by other National League clubs, shared the pitching chore. Two more castoffs—Ed Stevens and Danny Murtagh—angled the tying and winning runs across in the ninth as the Pirates edged Boston Braves 3-2.

Meanwhile the Giants were dropping a 5-2 decision in Cincinnati where 22-year-old southpaw Kent Peterson held them to five hits in his first start of the season.

With pitcher Walker Hoge and first baseman Johnny Mize sidelined by injuries, the Giants lacked their customary punch, with homers by Johnny McCarthy and Bobby Thomson accounting for their only tallies.

McCarthy's homer atoned for a two-run error that started the Reds off to a 4-3 victory over Detroit.

LOST SCHOOLBOY ROWE
Philadelphia Phillies outslugged the Chicago Cubs 13-9, but lost Schoolboy Rowe for a month when the 36-year-old pitching ace suffered a fractured thumb on a line drive by peanuts loosed. Andy Seminick had a three-run homer, and Del Ennis and Bert Haas collected two doubles and a single apiece. Four catchers helped out by basing 13 walks.

Junior Stephens clouted an 11th-inning four-bagger to give Boston Red Sox a 4-3 victory over Detroit Tigers after Ted Williams kept the Sox in the game with a magnificent double-play throw to the plate in the 10th to retire the side with the bases loaded.

Williams hauled down Walt Evers' drive on the run in left center and rifled a one-bounce throw to nail Johnny Ligon at the plate.

Wall Matthews scored a five-hit shutout at Chicago White Sox Wednesday night to help Washington Senators snap a five-game losing streak with a 6-0 win.

Soccer Meeting
A meeting of the Edmonton Soccer Council will be held in the USO Thursday night at 8 o'clock. Team representatives and council members are requested to attend.

Legion Soccer
All North Side Legion soccer players are asked to be at the Legion Thursday night at 8:45 complete with what equipment they have in their possession. A workout will follow on the flats below McDougall Hill.

Anavets Practise
Anavets football club will hold a workout at the Gyro Park Grounds 190 St. and 100 Ave. Thursday night at 7:30 p.m.

Flu Keeps Ducey From Renfrew Ball Workout

John Ducey, Edmonton's mightiest baseball mind by weight and volume, didn't attend the jamore at Renfrew Park last evening.

Almost everybody else, of consequence, was in local horsehide-and-hickory circles was on deck for the second spring training sortie of 1948.

Ducey was in bed with a touch of influenza. For his money you cannot beat this spring of the Big Snow for delaying conditioning.

Wednesday night it was so chilly in the stockade below the hill that the boys sweat reekings answering to Ugh Payok were turning out for cold-ups (not warm-ups).

Ed Morris and Laurel Harney, the managerial twosome in whom Mr. Ducey has invested considerable to teach the Esquimos and Cubs baseball from B to L, called the shots. They are responsible for a part of a 1-11-11 being in fine fettle by the opening "Play Ball" date of May 14.

Holders of last season dominating the scene included Ken Samis, Doug Stevenson, Hershey this winter was on hand, Nick Maskewich, Ed "Lefty" Bell-

ter, Doug Darrach and Cliff Johnston straightened out the detail of spelling his name correctly with the press. His moniker has frequently been spelled "Johnson", he says would make him a Swede. It has also been recorded as "Johnstone", the Scottish version.

It all depends on how you spell it. Johnston is English.

Newcomers on the premises included Tommy Kennedy, a second baseman-outfielder from Vancouver. Last September he played here when Vancouver Yorks split a two-game series with Esquimos. His previous experience includes a sojourn with Vancouver Capitals of the Western International League.

Kennedy is on the Bulletin circulation staff and is interested in joining Big Four ranks.

Jack Rayner, a long individual from southern Alberta who is attending the University of Alberta, showed as a pitcher. Products of the junior league included Don Wynn, Bill Kasting, Colin Kilburn, Don Hurlbut and Benny Grabow.

Jack McGill, a hockey chaffel of Boston Bruins and who played with Hershey this winter, was on hand. Al Superstine, the very good fielder

with Cubs in '47, shrugged a couple.

PRICE LIMBERS UP
Bill Price is more concerned with winning the western intercollegiate basketball title with the Alberta Golden Bears at the moment. But the flashy second baseman borrowed a glove last night to limber up.

For some weeks now the Price-control controversy between Edmonton and Calgary baseball interests has soaked up newspaper at a furious rate. Mr. Ducey of Edmonton has refused to let Price (who wants to play for Calgary Falcons) unless a suitable replacement is found by the southern moguls.

SUITABLE REPLACEMENT
Nobody is actually saying so but a "suitable replacement" for Jimmy Gibson, who was just about the best ball player in President Henry Koche's league last year.

A communication from Sam Timmins, the Calgary feeder, says: "If the league refuses to give Price a transfer to a Calgary team they'll just be keeping him from the base ball."

Bill has a job in Calgary which will help him toward financial engineering course at university.

thing over-zealous officiating out in heavily to the action. Total of 18 terms in the hoosgow were dished out. Flyers catching the short end with 10.

Senators, with something of a makeshift line-up on the scene, turned in much the same kind of effort as in the opening game at Regina.

Under the circumstances Flyers again appeared to play no harder than necessary and there were times when the fixture was no more exciting than Sunday in Toronto.

At the finish Flyers swarmed up the stairs to their dressing quarters (again they are using Stampede room) to be greeted by Joe Fisher, coach of Regina Caps. The Queen City mentor was profuse in his congratulations. He can't see anything but a final Edmonton triumph—and not much later than Saturday, at that.

WEAKER SHOTS

Oddly enough Senators enjoyed something like a 40-30 edge in the shots-on-goal department. But as in previous games of the series many of the drives were from a bad angle or lacked steam.

Only raw-boned "Butch" Shahan and sprightly Conny Tudin poured much rubber at Rollins that was hard to handle. Shahan was a stand-out offensively while Tudin, easily the Ottawa sparkplug since the team came west, continued to go weak.

Victoria arena was jammed for the contest. Majority of the fans seemed to be in Senators' corner.

Numbered among those who weren't were several hundred dyed-in-the-wool Flyer supporters who came down from the north by train, automobile and plane.

Smith's first period counter spread a little gloom among the Edmonton contingent in the pews.

However, when Irvine obligingly drew a penalty to start the second chucker the dark clouds were soon rolled away.

RIMSTAD TEES OFF

From a faceoff Rimstad all but golfed one to the corner of the Ottawa cage to make it 1-1 and 30 seconds later MacPherson's whirling one from the line went in off Bobby Copp and Flyers were out in front to stay.

Maher's tally, to run the margin to 3-1, resulted from a corner shot by Fred Smith, as the board read 4-1.

Pringle got his second marker in 31 seconds of third frame activity on a play that developed to the left of the Ottawa net, linemates Elmer Kreller and Smith also having a hand.

To round out the scoring Greene and Tudin by up-and-running after the curly-haired Flyer watchdog had stopped hard drives, but couldn't control the rebound.

Browns Look Down From First Division

NEW YORK, May 6.—(BUP)—Everything was looking down Wednesday for genial Zack Taylor, manager of the St. Louis Browns, yet the man with one of the worst jobs in baseball could see sunshine at the bottom of the toboggan.

Attribute it, if you will, to the fact that the fellow from Yulee, Fla., once caught for the Brooklyn Dodgers, that, in itself, must harden a man forever to the vicissitudes of life.

Certainly you can't question the man's courage. Last year the Browns finished eighth and last in the American League. They were lucky there weren't more bills to finish behind. Then they sold most of their stars, including shortstop Vern Stephens and pitcher Jack Kramer, two of their few pros. Even after that Zach agreed to take charge.

And at the moment the miracle man from the Mississippi Mudflats has them up in the first division. Nobody knows better than Zach that it can't last.

PERMANENT SHAPE
You just don't take a bunch of youngsters named Joe and crowd such clubs as Detroit and Boston out of the upper stories. The shake-down cruise ends any minute now and the two divisions will start to take permanent shape.

Zach's aim is not to get too far down in the bottom half.

"One guy said I wouldn't win 20 games this year," Zach grinned as he pounded a fangus bat into the cleat-scattered turf at Yankee Stadium to emphasize his words. "Well, I've got five of 'em."

Taylor gives most of the credit to his pitchers for getting the club away from the gate so unexpectedly well.

"But you can't single out any one man," he said. "It's just that everybody is in there hustling and we have plenty of spirit."

Zach doesn't agree with the critics who contend the Browns were selling themselves right out of the league by parting with such stars as Kramer and Stephens.

He leaves for Calgary next week.

FROM THE BULLPEN
Vern Caliban isn't interested in playing senior ball this summer. He'll be back with South Side in the junior loop come fall.

A brother Harold, the critics who contend the Browns were selling themselves right out of the league by parting with such stars as Kramer and Stephens.

Kilburn vices aren't required in the Big Four. The duo played junior hockey with Weta-Kilwin Canadians. Purvis tossed out-standing baseball with Calgary Legion in a southern junior league 12 months ago.

Maple Leafs will work out Friday at 7 o'clock. South Side swing into action Sunday.

Some time ago The Bulletin ran a story about Vern Caliban holding the junior league record at 17.

In 1946 Mike O'Neill hurled a 22-strikeout game for the Arrows. He is the real record.

'Peg Makes Big Comeback on Hoop Highway

WINNIPEG, May 6.—(CP)—Basketball, dormant in Winnipeg since the days of the famous Toilers of the early '30s, made great strides this year, playing before large crowds and finishing on the "right" side of the ledger.

While Manitoba representative in inter-provincial playoffs—the Paulins—failed to sidetrack Vancouver's slinky Clover Leafs, now battling Montreal YMHA for the Canadian championship, they put Winnipeg back on the basketball horizon by extending the Vancouver quintet to the limit in their best-of-three western final.

Too, the Winnipeg squad brought in top-ranking United States aggregations for exhibition games, which on most occasions drew near-capacity houses. And, Manager Al Carlson said, there was a good chance of Paulins next season bringing in such teams as Minneapolis Lakers of the National Basketball League and Philadelphia Oilers, top independent five-men of the U.S.

Evidence that the Paulins' team was on a par with others in the country was contained in a report that Captain Jack Pomfret of Clover Leafs, also physical education instructor at the University of British Columbia, had approached three local players. Pomfret was said to have dropped the hint there might be a place on the university squad next year.

Fraser ON SPORT

By STAN MOHER, Editor

Springboard to Flyer Success

CALGARY, May 6. — Jack Irvine and Bobby Copp, the major extractor, each came out of the Wednesday encounter wearing a pair of horns, the former, supposedly being sought by Calgary Stampede and Lethbridge Maple Leafs, upended the best laid Ottawa hopes by drawing a cheap tripping penalty that paved the way for Flyers' counters No. 1 and No. 2.

Copp spent a miserable time of it. A former Toronto Leaf in the war days, he was indirectly responsible for at least three Edmonton markers. On Bud MacPherson's tally the Senator rearguard was parked right on "Legs" Fraser's doorstep. The rubber went in off one of his skates.

Dr. Copp also was the goat on Morey Rimstad's goal. He took the face-off at the Ottawa end only to allow the Flyer centre to outpace him for the rubber after which it was soon in behind Fraser. Later Copp permitted Rimstad to sneak-thief the puck from him as a prelude to Bill Maher's goal on his linemate's passout.

Copp has failed to live up to his billing, considering the class he must have while in the NHL. Maybe he's worried about his practice back east. Whatever the reason he has shown very little.

It could be that winger Alex Smart and defenceman Ray Trainor, should they come on from the east for Saturday's clash, will prove to be super-duper trouble shooters.

Nothing else can save the disgraced Senators. Trainor, they say, was Ottawa's best hitter all season.

Smart is supposed to be a real cutie, despite the handicap of wearing glasses in a game like hockey. But Trainor and Smart to the contrary, Flyers shape up as a shoo-in.

Rollins Has Sign on Easterners

By this time they have Senators all figured out. Al Rollins, for one, has the sign on most of the easterners. They gave him a few anxious moments in the fourth game with low drives that were away down there on his skates. Not only are the low ones hard to block, but as well it's tough to get them out of there before a rebound becomes a goal.

Flyer rearguards have kept the front of their net well guarded all through the series. In this respect they hold a big edge on Boucher's mob. It was like old times for Alex Pringle to knock over Fraser for a pair of goals. Not many seasons back that was par for the course with the product of the Maple Leaf Athletic Club.

Actually there wasn't a stickout in a carload of Flyers. Pringle, off his two-pronged efforts, was probably the most valuable performer in an Edmonton Exhibition Association jersey.

Right down the line the Edmonton cast played at least well enough to keep the eastern champions securely in check.

Boucher was bitter in his views of the referees. At one stage he caught the attention of Danny Cox when the Port Arthur arbiter journeyed to the Ottawa box on a matter of business. Senators' coach pounded the railing and at the same time Cox was in danger of acquiring a tin ear, so biting was the Boucher harangue.

Easterners Blame "Big" Penalty

In the eastern camp all were pretty certain that the "big" penalty charged to Irvine was strictly for nothing. While the man-with-the-smoked-glasses served his time, Flyers moped through for a pair of priceless goals.

Both Pug Young and MacPherson stopped Ottawa sticks with their noggins. At one stage of the second period Copp, Lude Check and Connie Thud were in the penalty box together and the deferred penalty rule was invoked. At this time Pringle netted his opener.

Only an optimist of the first water could like Senators to prolong this series beyond Saturday. They shape up as a well beaten squad and there are no signs that Copp, Smart and Trainor, or even the presence in the line-up of senior wheel.

No sir. If we had stock in the Ottawa chances we'd be inclined to sell to the first buyer. Let's hope, for Senators' sakes, that the east is another great "next year" country.

Pepper Martin Can Still Burn Up the Track

By HUGH FULLERTON JR.

NEW YORK, May 6.—(AP)—When Pepper Martin turned up at Norman O.K., to do some scouting for the Dodgers at the State High School baseball tournament (75 teams this year), he spotted Bud Wilkinson's football team drilling on an adjacent field. The 44-year-old Pepper drifted over and challenged Jack Mitchell, star back, to a footrace. . . . Pepper won the first 40-yard dash by a yard, then lost by one stride to Tommy Gray, Oklahoma's fastest footballer. . . . Pepper then panted: "I can't come back as fast as I used to."

Naturally there was some mention of Ray's celebrated circus stunts, but Dumont had the last word: "Our good friend, Mr. Chandler, still is a democrat at heart. I'm surprised to see a revival of that sport. . . . donkey baseball."

SHANGHAI, May 6.—(AP)—China's seventh annual athletic meet opened Wednesday with minimum confusion for things Chinese. . . . First, a six-hour traffic jam delayed the opening. . . . Then an unruly mob burst into the stadium, packed with 10,000 just as the first 1000 were being played—and all the cops were standing at attention. Did Aussie Hurl Ball Through W.G.'s Beard?

LONDON, May 6.—(CP)—When the Australian cricketers arrived in England, wittingly or otherwise, they started another of those cricket controversies.

A columnist of the London Evening Standard started things by saying that Australian cricketer Ernest Jones had once heated a cricket ball through the massive beard of Dr. W. G. Grace, England's "grand old man of cricket."

At first, the were skeptics who maintained the beard of W.G. never was subject to such an undignified assault. But C. B. Fry, who was playing against the Australians in the match, confirms the story.

It was said to have happened at Lord Sheffield's Sussex home, Sheffield Park at the beginning of the Australians' tour in 1896.

Said Fry: "W. G. shouted in exasperation about this beardline ball. Jones replied: 'Sorry, Doctor, she slipped.'"

But Charles Greenway, who played for Gloucester in the early 1890's, claims he also did the dirty deed. At practice on the Bristol ground, says Greenway, W. G. snatched one day that had been bowled at the nets for three weeks. Greenway accepted the

reach Montreal in time for the Dominion Finals.

Last October the Winnipeg basketball people advised Dominion president Laurie Irwin of Toronto that they would not be able to start the western final until April 27. Despite this, the entire schedule of the Western Dominion and Olympic finals were built around the presumption that the western playoffs would start in Winnipeg April 26.

Under the circumstances, the Clover Leafs had to fly to Fort William in order to catch up with train schedules.

Television Impasse Reaches Ring Crisis

By Oscar Fraley

NEW YORK, May 6.—(BUP)—Boxing's great television impasse reached a new crisis and it's one which probably will send the Fight Managers' Guild screaming to the police for protection.

In what amounted to heresy, middleweight contender Steve Bellosie disclosed that the boxers were considering formation of an organization to protect themselves against the managers. Shades of Prime Carnera.

To brief you briefly, the managers have a strike on against the 20th Century Sporting Club, demanding 50 per cent of the television receipts. The next Madison Square Garden show is listed for May 14 and the guild intends to throw up a muscular picket line against any imported talent.

CRUELTEST BLOW But now comes the cruellest blow of all. Bellosie revealed that the fighters think their managers are doing better than fair by taking one-third of the fighters' purses, so the men who do the mauling also along with the idea that they should get 30 per cent of the television receipts—but want 50 per cent if that themselves sell only 10 per cent for the guiding genius.

It caused much moaning and consternation among J. J. Bracy. Everybody knows of the tender care and affection which these noble souls lavish on their boys. After all, the kid doesn't do anything but the fighting.

Illustrating the inaptitude facing the "picks," consider the trials and travail as the managers labor to teach their boys the fight. And the self sacrifice en-

tailed as they advise their bleeding charges to "go in there and fight, you can't hurt us." The rugged, broad shouldered Bellosie ignores all that. And, with perfect honesty, he contends: "As far as television is concerned, fighters should be regarded as performers."

"Actors' agents only get 10 per cent," Bellosie pointed out, "raising way of the wounded managers forming a background crescendo."

"Well, fighting is something like the theatrical business and the managers should only get 10 per cent, got 33 1/3." The balding Bellosie carried his boxing right to Sol Strauss, currently the bull moose of the Broadway boxing industry in the absence of Uncle Mike Jacobs. Strauss is not the best manager the 20th ever had but he must have gotten quite a belt out of the proceedings.

For if enough fighters can get out from under their contracts with the managers, they would be a lot easier to talk to than the characters who stand in the corner of the boxes, usually a lot handier with their hands than they are with their heads.

And just the way it is, a rift might take the punch out of the picket-line, imported fighters wouldn't be much of a bargain if they had to fight their way into the garden. But with the managers stripped of their muscles the show would be sure to go on.

Da Preen, whose managers clipped him of millions and left him broke and heartbroken, must rely on his laughing.

Alberta Boxers Arrive At Coast VANCOUVER, May 6.—(CP)—Twenty-four brawny young fighters from Alberta, Saskatchewan and Manitoba arrived here by air Wednesday.

Accompanied by three coaches, the boys are ready to battle for the Olympic fund's diamond belts and the Western Canada amateur boxing championships.

They will meet British Columbia's eight-man team Friday and Saturday nights.

Eddie Zastrie is among Manitoba arrivals. The brilliant lightweight ran up an impressive record in Chicago's mid-First Golden Gloves tourney this year.

None, however, seems to bear any malice toward the centre of the whole question—W.G. Greenway, now a spry veteran of '8, paid a sentimental visit recently to Grace's grave in Elmer's End cemetery, Kent. Finding the cross broken, a bomb was thrown overgrown, he wrote to Sir Pelham Warner about it. He got in touch with W.G.'s family. The monument now has been repaired.

Victors Board Pullmans After Tonight's Tilt

The hopes and fears of the basketball season come to a head for the British Columbia Thunderbirds and Alberta Golden Bears tonight.

For this is it. At 7 o'clock at Varsity the teams clash in the rubber match of the best-of-three series for the western intercollegiate championship.

The winning aggregation boards an east-bound train immediately following the game headed for further basketball play in Toronto's Maple Leaf Gardens. On May 9-10 the western winners meet University of Western Ontario Mustangs for the Canadian college crown.

And the eventual collegiate kings play the senior commercial champions with a trip to the Olympic games on the line.

Vancouver's Clover Leafs and Montreal YMAA are battling for the commercial laurels. The Leafs hold a 2-1 edge in the best-of-five series. The Vancouver team wraps up the easterners in the fourth contest tonight.

In the Thunderbird-Golden Bear quarrel there isn't too much to choose. The westerners arrived in the wake of the foodstuffs which preceded a team with an enviable record. Coach Bob Osborne's quint shaded the Vancouver Clover Leafs 53-48 one month ago.

TOP OLYMPIC BILLING That victory gave the B.C. students top Olympic billing on the Olympic handwagon, particularly after the Clover Leafs proceeded to knock off all opposition along the trail to Dominion honors.

And just about everybody supporting Alberta's green and gold figured the Thunderbirds would be contenders when they trounced Golden Bears 62-46 Monday.

Canucks of the now pro Pacific Coast Hockey League plans to raise admission prices. When the gates swing open next October, prices will be advanced 25 cents, he said Wednesday, with a top price of \$1.50 a seat.

"That will just about cover the 20 percent Dominion tax on professional sport," said Hall. The PCHL voted to go professional at the annual meeting here.

SCOTTISH Soccer LONDON, May 6.—(Reuters)—Wednesday's British soccer results: SCOTTISH "A" DIVISION Morton 1, Airdrieonians 1.

Glasgow Charity Cup semi-final: Rangers 3, Partick Thistle 0.

Official for the contest will be Ed Tomick of Edmonton and Floyd Pesler from Bellingham, Washington. The latter, a snubbed, balding white-totter, has handled several UBC games in the past. He may accompany the Birds further should they topple the green and gold.

THREE DOT STUFF Starting line-ups are likely to be Bill Price, Bill Rich, Boyd Chaffin, Evan Erickson and Jim Macrae for Alberta against New Munro, Reid Mitchell, Bob Haas, Harry Kermode and Pat McGeer. Both teams hustled through light workouts Wednesday.

Osborne will lose Kermode, McGeer, Haas, and Gerry Stevenson through graduation this spring. Loss of that trio from the first string for the future makes this B.C.'s year to go as far as possible. And who wouldn't like chasing basketballs during July on an Olympic expense account.

In the series to date with 35 He's followed by McGeer (31), Price (26), and Kermode (16).

PORT ARTHUR, May 6.—(CP)—The "little man" is back on hockey. The miniature was missing from a lot of people can stop worrying.

When Port Arthur's West End Bruins, junior hockey champions of Canada, boarded a truck to parade through the city school grounds Friday, a welcoming throng noticed that one of two miniature model hockey players was missing from the cup. No one seemed to know where he had gone.

Defenceman Pete Durham came up later with the explanation. He had noticed that the miniature was loose. So he tucked it in his pocket for safe-keeping.

Clover Leafs Shoot Beefs at Officials

VANCOUVER, May 6.—(CP)—Four notes, charging the Canadian Amateur Basketball Association with inefficiency, have emanated from sports writers accompanying Vancouver Clover Leafs on their across-Canada tour.

The charges arose after Clover Leafs, defending Dominion basketball champs, overcame Alberta and Saskatchewan titlists.

Reg (Vancouver Province) Moir says in both Magrath, Alta., and Regina there was a lack of understanding about commitments made by each province toward the proper functioning of the playoff series. As a result, Clover Leafs have "in the hole" financially.

"It would seem time for the Canadian Amateur Basketball Association to clean house," Moir says. "In every other sport the national bodies are a little rein over important playoffs. The CABA leaves this to the teams concerned."

Moir contends that apparently concerned only with the Dominion Finals in Montreal and the Olympic

The Edmonton Gun Club opened the season yesterday with a very good attendance. Doc Raver and Christ Ergens were high guns with scores of 24 out of 25, while in the doubles Topsy Turvey and Ergens tied with 20 out of 24. Dan Driscoll was among the top 20.

The lineup for the Dragons cricket team, for their game at Northside Exhibition grounds tomorrow afternoon, will be as follows: Hardisty, Patterson, Weaver, Prendergast, Nourse, Patmore, Hern, Forton, Guthrie, McDonald, Herds, and Jones.

Under the circumstances, the Clover Leafs had to fly to Fort William in order to catch up with train schedules.

Baseball "Out" CALGARY, May 6.—(CP)—Baseball will have to continue as a lost art among Calgary school children, the building and finance committee of the school board ruled as it voted to recommend that a ban against the game being played on school grounds be continued.

City Woman Awarded \$7,400 For Damages

Damages totaling \$7,400 were awarded Mrs. Ethel Forgestad, 1141 95 street, in a supreme court judgment handed down today by Mr. Justice C. J. Ford.

The court action arose out of an automobile accident at the intersection of 114 avenue and 95 street on August 9, 1947.

Defendants to the action were David R. Smart, driver, and Edward L. James, owner of the automobile that struck and injured Mrs. Forgestad.

She suffered fractures to both legs, and medical evidence at the trial disclosed that a bone in her left leg has failed to knit and is likely to cause permanent disability.

The plaintiff was brought to court on a stretcher to give evidence at the trial.

City Chinese To Celebrate

Edmonton branch of the Chinese Nationalist League plans an early celebration over the induction Wednesday of Chiang Kai Shek as the first president of the Chinese Republic.

Local Chinese are greatly pleased by the news.

Phillip Pen, prominent member of the Nationalist League and manager of the Yat-Sun Importing and Exporting Co., was highly optimistic as to the future of China under the new president.

"Chiang Kai Shek is the only man strong enough to unify his country and because of his overwhelming victory in a democratic election he will obviously have the people behind him," stated Mr. Pen.

SEES BRIGHT FUTURE
"China's future is very bright," continued Mr. Pen, "and it is fairly certain that the Communists will be defeated, which will greatly stimulate trade between China and Canada."

Mrs. H. K. Lowe, employee, and sister to the manager of the Yat-Sun Importing and Exporting Co. was deeply pleased and felt confident that the future of China held great promise.

Said Mrs. Lowe, who returned from China just eighteen months ago after a thirty year visit, "With my intimate knowledge of the problems of China and her people, I feel that the new president will unify China and will raise her to her rightful position as one of the great countries of the world."

The forthcoming celebration will be patterned after the hour-long fireworks display presented last night by jubilant Calgary Chinese.

Damage Action Arises From Crash
William Stelmack, Ponoka hotel proprietor, started action in supreme court Thursday against J. A. Holben and W. Holben, Galloway undertakers, seeking \$1,940 special and general damages.

The action arises out of an automobile collision on January 12 last on the Calgary highway three miles north of Wetaskiwin.

It is alleged in the statement of claim, filed by the late firm of Wood, Buchanan and Campbell, that a motor car owned by J. A. Holben and driven by W. Holben crashed into the plaintiffs' automobile which had been parked on the highway for a motor test.

SHOPLIFTER HAD \$87 CASH

With \$87 in his pocket William Sowchuk, no fixed address, went on a shoplifting tour of a city department store Tuesday.

In court Wednesday he was sentenced to 30 days for stealing two ties, a chisel and a pair of socks.

When searched he was found to be carrying the \$87 cash.

City Labor Men Divided on Change

Berg Unaffected Yet Sibun Denounces It

Carl E. Berg, western vice-president of the Trades and Labor Congress of Canada, commenting on the proposed outlawing of sympathy strikes, said the TLC or the AFL had never advocated or supported sympathy strikes and therefore is not greatly affected.

However, he said, good trade unionists will not cross a picket line where a legal strike exists, and any attempt to compel workers to do so will meet with strenuous resistance.

It will, he added, undoubtedly compel many trade unions to combine for the purpose of having their agreements expire simultaneously to avoid "scabbing" on each other.

Mr. Berg said the congress last year gave its approval to Bill 338 which is now being considered as Bill 195 as being good legislation, though not all that could be desired.

Unless the legislators attach too many objectionable amendments, he said, this will still be the official stand of the TLC.

Labor believes, Mr. Berg stated, that conciliation and arbitration are the best methods to solve industrial disputes, but resents any and all attempts to interfere with their legal rights to strike.

Proposed outlawing of sympathy strikes is the first step to break down the strength of labor unions in the opinion of A. E. Sibun, business agent of the Amalgamated Building and Construction Workers, (C.C.L.).

It is aimed, he contended, at preventing labor unions from helping one another, and it violates the principle of collective bargaining, a fundamental right of labor.

Mr. Sibun said the local of ABCW here as well as other locals across the country, and the Canadian Congress of Labor were preparing briefs protesting this feature of the new labor code now being considered by the Commons Industrial Relations Committee.

The business agent favored the inclusion in the act of a provision that would require principals in a conciliation proceedings to appear personally.

Any representative whether lawyer or otherwise, should be barred from appearing before a conciliation board except with the consent of all parties, he contended.

His organization had experienced speedier and more satisfactory results when only the principals participated in negotiations, he said.

Thieves Steal Two Bikes

Thieves obtained \$130 in cash in a city cafe today but failed to open the safe in the establishment.

Theft was reported to police by an employee of the robbed restaurant, the Union Cafe, 10310 97 street.

The money was obtained from a cash register and a drawer.

Evidence indicated the safe had been tampered with, but was not opened.

Entry to the cafe was gained by forcing a rear door.

The theft was discovered about 5 a.m.

The robbery was the second in city cafes in two days.

Wednesday morning, Betty's Cafe, 10360 101 street, was robbed of \$35.

LATE SEASON WILL REDUCE WHEAT ACREAGE

Alberta farmers will be growing less wheat this year as a result of late spring, it was reported in a release from the provincial department of agriculture today. About a 7 per cent reduction in wheat acreage is expected.

Sowing of oats, barley, and flax will probably increase as a result, the department states.

Seeding has started in the extreme southern part of the province, but general seeding in Alberta will not begin until between May 10 and May 20.

Sowed supplies are reported generally good, especially for wheat.

Autoist Fined \$20 For Leaving Accident Scene
Arthur Sonne, Nilon, pleaded guilty in city court Wednesday to a charge of leaving the scene of an accident.

He was fined \$20 and costs or one month in jail.

Court was told the accused's auto collided with another on Jasper avenue about 4:25 a.m. Wednesday and following the accident he drove off.

A policeman and the owner of the other car involved gave chase and apprehended the accused.

Alberta Farmers Fifth In Income Tax Paid

Alberta farmers ranked fifth in payments of income taxes in the year 1946-47.

Average farm income tax for the province was \$240. The Dominion average was \$279 reports from the income tax department revealed today.

Highest income taxes were paid by Nova Scotia farmers who averaged \$522.

Other provincial averages were: Saskatchewan, \$358; British Columbia, \$340; Ontario, \$283; Manitoba, \$216; New Brunswick, \$203 and P.E.I., \$200.

Lowest was Quebec with a farm average of \$131.

During the year, 24.39 per cent of farmers making returns were assessed, as compared to 15 per cent during the previous tax year.

Alta. Indians Ask for Vote, Retain Rights

Alberta's Indian population should be granted the right of vote, but not at the expense of losing their treaty rights.

This was the opinion expressed Wednesday night at a meeting of the Committee of Indian Friends Council held in Alberta College to consider and amend a brief to be presented to the federal parliamentary committee reviewing the Indian Act.

Any attempt to change the Act of 1870 would be strongly opposed by the Committee, it was learned. Johnny Calhoun, president of the Alberta Indian Association said, "My people want to vote, but they feel it should not be at the cost of their land and cash grants."

Horace Johnson, legal representative for the Indians during the 1943 federal government investigation of Indian affairs, addressed Wednesday night's meeting.

Mr. Johnson contended the finding of the 1943 investigation should be made public.

This was approved by the meeting and it was decided to incorporate this in the Indian submission to Ottawa.

Indian brief will be sent to Ottawa immediately to enable the parliamentary committee to consider it before announcing its findings on May 15.

May Ask Govt. To Share Cost

Extensions to the High Level bridge should be partly paid for by the provincial government.

This was the opinion expressed at a recent meeting of the Alberta Motor Association.

No immediate action on the suggestion will be taken, it was decided.

It was backed by the argument that considerable traffic of a provincial nature crosses the bridge.

A report of the association's bridge committee was given to the meeting.

The committee, it was reported, had discussed various aspects of the crossing with the city engineer.

Civic officials, the committee said, had revealed potential plans to relieve congestion on McDougall Hill by improving grades on other hills.

The reporting committee consisted of Dr. G. J. Hope and R. L. McMillan.

Payment for original construction of the bridge, the report stated, was aided by the provincial government which paid over 10 per cent of its original cost.

Total cost of the project was \$1,391,254, of which the province paid \$175,000 or 12.5 per cent.

One suggestion put forth at the meeting was that the province should pay \$250,000 for their share in projected improvements to the bridge.

Some doubt was expressed that the CPR would allow the city's planned alterations to the upper deck.

An extension to the present lease on quarters occupied by the bridge was also discussed.

CITY PARTICIPATES IN LARGE HOUSING PLAN

CHILD WELFARE PROBE RESUMES ON MONDAY

Resumption of the Royal Commission inquiring into Alberta's child welfare administration has been called for Monday, May 10.

Chief Justice William R. Howson, chairman of the commission, Wednesday notified commission counsel James Mahaffy, Calgary, to notify members and counsel of the new date.

Sittings of the commission were suspended some weeks ago when Chief Justice Howson was taken ill and hospitalized.

Recently released from hospital, the justice announced Wednesday he was ready to resume his duties.

Sittings will be in Edmonton's supreme court house.

Further Conciliation May Follow Strike Vote

It is doubtful if Canadian railway unions will go on strike immediately after their coming strike vote is taken.

This opinion was expressed Wednesday by Hon. C. E. Gerhart, minister of industry and labor.

Mr. Gerhart would not prophesy the outcome of the proposed strike vote, but said the Dominion government would probably attempt further conciliation to forestall a nationwide railway strike.

"Further negotiation is all that will avoid the strike," said the minister. "In this province, even if a vote is passed, we try for further conciliation. The Dominion government will probably do the same."

Indications among city railwaymen belonging to the 18 international unions which took the strike vote decision in Montreal Monday are that the workers will vote in favor of the strike.

C. T. Vance, of the trainmen's union, told The Bulletin Tuesday that "by the talk" among city union men, the vote will favor strike action.

Conciliation board's recommendation to grant the workers a 7-cent increase in hourly wages in place of the asked-for 35-cent boost is regarded by city union men as "more or less of an insult," said Mr. Vance.

"The cost of living has gone up out of sight," he stated.

"The men I have talked to say they will vote in favor of the strike."

It is believed that at least 60 days will be needed to take the nationwide strike vote. In the meantime, plans are being made by the unions to convene local chairmen across the Dominion to present the picture to them.

Some doubt was expressed that the CPR would allow the city's planned alterations to the upper deck.

An extension to the present lease on quarters occupied by the bridge was also discussed.

250 Homes To Be Built For Veteran-Rentals

Municipalities have signed agreements with the Dominion government for the construction of 3,575 rental housing units during 1948, Trade Minister Howe told the House of Commons Wednesday.

The City of Edmonton has signed an agreement with Wartime Housing Ltd. for the erection of 250 homes here for rental to veterans.

Tenders have been called and bidders have been asked to submit figures covering multiple of 25 homes so that small local municipalities participate in the construction work.

The 250-home project is estimated to cost \$1,500,000.

In his announcement to Commons, Mr. Howe said negotiations are now underway for the construction of an additional 5,719 units across Canada.

It was not revealed how many would be erected here.

By regions the number already under agreements or negotiations are: Maritime, 1,310; Quebec, 415; Ontario, 3,375; Prairie, 2,530; British Columbia, 1,115.

June 1 has been set as the deadline for negotiating agreements to build the rental units, Mr. Howe disclosed.

This was because the government does not wish to enter into winter construction involving extra costs.

It is still undecided whether the government will continue in the rental field in 1949.

Figures released Wednesday showed that in the Dominion's own rental-housing program, 5,421 units were completed in 1947. A carry-over of 5,304 uncompleted units would be completed soon, it was stated.

Some provinces would favor the Dominion labor legislation, the minister said.

FROM BEAT TO BOSS ON POLICE FORCE

Chief Jennings Big Man Who Is Doing Big Job

Chief Constable Reginald Jennings is a big man, which is just as it should be because he has a big job in running the Edmonton Police Force.

His daily working schedule is a heavy one. Regardless of the high or low ebb of crime, there are a multitude of routine demands on his time.

The "Chief" usually begins his day with a half-hour press and radio conference. This is followed by the morning correspondence, every letter of which, by the way, he reads personally.

After a comparatively slow first hour, the momentum of the day is sharply increased. At 9:30 there is a policy conference with Deputy Chief Riddell and Detective-Inspector Petheram. By the time this is over, Chief Jennings has hit his stride and is ready to cope with the most trying period of his day: interview time.

From past experience, he knows that the visitor may range from the violent crank with an insatiable grievance, to the heart-broken mother searching for her missing teenage daughter. To each, he gives the same consideration and sympathy but he is quite firm in his

dismissal. If the caller should prove to be persistent or obnoxious, RESEMBLES GEN. MARSHALL. In this, he is aided by his strong resemblance to the famous General Marshall. They both possess dominant, strongly-lined faces and erect military carriage. This likeness tends to make the average visitor tread rather gently when facing the "Chief" across his kiosk-sized desk.

When the last visitor has closed the door, he reaches for his jaunty snap-brim and walks the short block to the Civic building, where he takes part in a before-lunch policy meeting with the police commissioners.

Lunchtime rarely finds Chief Jennings at home. He is more apt to be at a civic luncheon, or eating in a hurried restaurant meal.

His afternoon is no less busy. It varies from the morning only in that he makes an unofficial walking tour of the downtown beats.

Away from the office, Chief Jennings displays even more of the naturalness and charm of manner which have won him so much respect on the force.

A good family man, he has two married sons and three charming granddaughters.

The Jennings residence, in the Highlands, was built there because of the same of golf.

GOLF IS FAMILY GAME
Nearly eighteen years ago, long before the "Chief" even dreamed of his present eight-handicap golf game, Mrs. Jennings was the only golf enthusiast in the family. She constantly urged her husband to learn the game, and after much resistance, he finally capitulated.

So, with characteristic good sense, he built a home where he would have a golf course virtually in his own back-yard.

With his trim (feet 2 inches) and athletic (track and field) man, he has been an avid follower of local hockey—junior and intermediate as well as senior.

Chief Jennings has been in office since 1947 and during that period has been proven his worth by the well controlled and diminishing crime record.

Kiddies' Antics Steal Spotlight at Show

Children's Round-the-Clock Fashions Get Less Applause Than Tiny Models

NEW YORK, May 6.—(CP)—The small three-year-old tow-head, wearing not much more than her curls, sidled slowly down the fashion-show ramp.

It was a fashion show for children but the grownups ate it up. It was obvious from their murmurs and applause that the lilliputian models were a welcome change to the tall, svelte, glamorous models usually to be seen at fashion reviews.

Jacqueline Hixon Married in B.C.

MCHABIDE, B.C., May 6.—While carnations and tulips decorated St. Patrick's Church for the recent wedding of Jacqueline Patricia Hixon, daughter of Mr. and Mrs. Henry H. (Hixon) of McBride, B.C., and F. G. Moussoir, son of A. Moussoir, of St. Boniface, Man. The Rev. Father W. J. Moriarty performed the ceremony.

The bride, given in marriage by her father, wore a beige suit complemented with black accessories. She chose a model hat of flowers and carried a bouquet of red roses and lilies.

Mrs. E. Hixon, who attended the bride as matron-of-honor, wore a gray suit with lavender colored accessories. She carried a bouquet of spring flowers. Louis H. Hixon was best man.

At a reception following the ceremony a three-tier wedding cake, flanked by roses and white paper, centred the bride's table. The Rev. Father Moriarty proposed the toast to the bride.

For a honeymoon trip to Winnipeg, Ontario, Niagara Falls, Montreal and Quebec, the bride wore her wedding suit and blue topcoat. Mr. and Mrs. Moussoir will reside in McBride.

So Many Theories Confuse Beginner

By William E. McKenney

The beginner at contract sometimes becomes confused by the ories. He learns about the "hold-up" play, and thinks that he must employ it every time he plays a no trump contract.

In today's hand it is necessary to give up any thought of a holdup

overtake in dummy with the ace, cash the queen of diamonds and then lead the jack, forcing the jack out. In case of a four-two split he has saved the contract, as he is secured of five diamonds, two hearts and the two black aces.

He may make an extra trick by getting West endplayed, but this is secondary. The main thing is in order to assure making the contract, declarer must give up the holdup play and must surrender the chance of making all six diamond tricks.

Lack Of Paper Means Censorship To Europeans

LONDON, May 6.—(AP)—Lack of newspaper is forcing an "indirect censorship" of European newspapers, president R. A. Gibbs of the Newspaper Society said last night.

He said it is plain that a full knowledge of public events is "forcibly withheld" from most of the people for lack of paper to print it. "In Britain not everyone who wants a newspaper can get it," he said at the society's annual dinner, "and those who can, find the paper as measure in size that the paper far and must surrender the chance of making all six diamond tricks."

"How come everybody's so crazy about these new chemical weed killers, and all you'll let me use is this medieval gadget?"

140 Donors Attend Clinic at Wetaskiwin

WETASKIWIN, May 6.—Recent blood donor clinic held here was the most successful to date despite bad weather conditions and of 140 donors who came from city and country. \$1 were new. Mrs. Thomas A. Palfrey was in charge.

Assisting were Mesdames Frenschmann, Hennrich, Vile, Cowell, Cole, Blackwell, Hutton, H. H. Macdonald, Groatman, Lysman, Wilson, Gomer, Dwyer, Hufner, Nelson, Chaffee, Manning, Ross, Huisman, Grier, Clark, J. J. Menden, and the Messrs. Rankin, Fey, Caven, Oswald and Sharkey.

Girl Guides and Rangers and the pupils of the schools under the guidance of teachers, Mrs. A. B. Mann, and the Messrs J. Cudlin, I. Phay and A. Hasechick all played a big part in making the day a success.

G. E. Billings and V. B. Montgomery assisted all day in the transportation and as all supplies, with the exception of the refrigerator car, had to come by train due to road conditions.

Former Wetaskiwin Electrician Dies

WETASKIWIN, May 6.—Funeral services were held here recently for the late Walter Chapman, 65, a resident of the city for 30 years. Deceased was born in London, Eng., and came to Canada in 1883, eventually becoming city electrician. Later he was employed by the Calgary Power Co. as head of the electrical plant. Recently he established an up-to-date electrical shop and was active until the past six months.

Mr. Chapman was a past governor and charter member of the L.O.O.F., No. 1589 and also held degrees of membership in the Canadian Legion and the Moose. Surviving are his wife, one daughter, Mrs. H. Wilson, sons Walter and James of Wetaskiwin and Cyril of Edmonton. A sister, Mrs. J. Williams, also resides in the city. Rev. Roland D. Binning officiated and conducted the local cemetery.

New Norway Forms Rink Committee

NEW NORWAY, May 6.—Meeting was held here last week to coordinate efforts in connection with the skating rink. Bob Tremnes was chairman and gave a report on the season's activities.

It was decided to form an organization made up of skaters, citizens, community club, Tannehill hockey club and village council.

Desired to contact the various groups were Mrs. Cora Schultz, school, J. C. Wells, citizens, Kinsman Jans, Dubhand, Roy Malmo, hockey, club, Carl Anderson, council.

Council at Hanna Prepares Bylaws

HANNA, May 6.—At a recent council meeting several bylaws were recommended to be passed. One was for the Hottel, bicycles, another that those on the milk in the town should be protected, and that no dogs will be allowed to run at large.

Third reading was given to a bylaw whereby all residents must keep all sidewalks in front of their property free from snow.

HANNA COW FINDS TOUGH WINTER EASY

HANNA, May 6.—Late last fall an eleven-year-old cow was missed from the herd of Albert Hutton. Hiding out to look for her Mr. Hutton came across the remains of a cow and felt satisfied that she was the one he was seeking.

Last week, Mr. Fred Burgemeister, the man who rented the Hutton farm this spring, thought he saw a cow at some distance out in the field. The next day he saw her again and rode out to investigate. There he found a thin but very wild cow bearing the Hutton brand and with her was a weak old calf. How she withstood the rigors of last winter is a mystery.

DISTRICT NEWS IN BRIEF

Daysland Board Discusses Arena

Project to Be Placed Before Meeting of Citizens Shortly

DAYSLAND, May 6.—Twenty-five members attended the recent meeting of Daysland Board of Trade. Several important matters concerning the welfare of the community came up for discussion.

Building of an arena in Daysland was discussed at length and it was decided to hold an open meeting on citizens this month to secure their opinion regarding the arena project.

Possibility of having natural gas piped to Daysland received considerable attention and construction of the north-south highway also was discussed.

Board of Trade is erecting signs at both the east and west approaches to the town and plans were laid to meet with AFU in connection with the proposed Farmers Field Day to be held during this coming summer.

Effect of increase in freight rates also was discussed.

P. Hammler and R. Swoboda were elected to the membership committee.

VETERAN, May 6.—Eugene Price, recently returned from attending University of Alberta, has been appointed teacher in the intermediate room in Concordia. Miss Joyce Melin and Dean O'Brien were married recently in Vancouver.

Annual Festival Held at Mannville

MANVILLE, May 6.—Mannville-Minburn sub-local held the annual festival at Mannville last Thursday. Three adjudicators kept busy most of the day on the many items of music, elocution, and drama. For the evening concert the Orange Hall was packed to the doors by an appreciative audience and as many more were turned away.

A concert was held on Saturday evening in Minburn and one will be held in Mannville tomorrow evening to give people not able to get to the first concert an opportunity to enjoy the work presented.

A few country schools were prevented from attending the festival by bad roads and this cut the entry down below last year's numbers. Adjudicators at Mannville were Mrs. Hattie from Edmonton, Mrs. Cleopatra, Vegreville, and Mrs. Hay, Veillon.

Hardisty Area Out of Danger

HARDISTY, May 6.—Danger from further flooding appears to have passed, as the Battle River shows no sign of rising. Iron Creek has dropped several inches, but the river flat is still covered and boats are able to move about, where the highways were.

Many farmers have lost seed grain and feed through overflowing water-clogged, in granaries. In the path of flood waters, several farmers were temporarily forced out of their homes.

ROBBERS MADE "HEAVY" HAUL

NEW YORK, May 6.—(AP)—Safe-crackers got away with a \$4,000 haul here, but they had to do it the hard way.

The robbers cracked a vending machine company's safe, scooped out the cash—and struggled away. The \$4,000 was in nickels, dimes and quarters, weighing 275 pounds. They left behind an additional \$2,000, also in small coins and weighing 320 pounds.

"Good Sense" May Avert Rail Strike

CALGARY, May 6.—(CP)—The good sense of both labor and management should settle the present railway dispute before a strike is called, J. P. Johnson of Winnipeg, newly-appointed vice-president of the Canadian National Railways' Western region, said in an interview yesterday.

Here during an inspection trip over Western lines, Johnson said he was not "fundamentally apprehensive" over the action of 18 railway unions in breaking off wage negotiations and calling for an immediate strike vote. The unions, numbering some 125,000 members, called for a strike vote after rejecting a conciliation board's recommendations for a seven cents an hour increase. The unions are asking for a 35 cents an hour boost.

Much Timber Lost By Spring Storms

VANCOUVER, May 6.—(CP)—Spring storms on the British Columbia coast have wrecked an estimated \$35,000 worth of logs from their booms and drifted them into United States waters. Logging companies said today only five of 30 sections cut loose have been recovered.

Canada Not Asking Part In Peace Plan

OTTAWA, May 6.—(CP)—External Affairs Minister St. Laurent told the Commons yesterday that Canada has not asked to participate in drafting a temporary plan for the re-establishment of Germany.

He said Britain, the United States and France are trying to work out a temporary solution pending the drafting of a general peace treaty. The Canadian government was being kept fully informed on progress made.

The Canadian government felt that, if it asked to participate in the negotiations, other countries would make similar requests. This probably would delay the economic recovery of Germany, essential to the welfare of western Europe.

Canada still insisted, however, that in drafting the general peace treaty she be given a role commensurate with her status as a great power.

Busy Season Seen For Port at Churchill

SASKATOON, May 6.—(CP)—Officials of the Hudson Bay Route Association here today said they expect a busy season at Churchill, which will be visited later this year by two Canadian destroyers.

Defence Minister Claxton announced the destroyers' visit to Canada's most northern port in a Montreal speech Tuesday night. He said they would be the "first Canadian warships ever to enter Hudson Bay."

Yesterday, Frank Eliaison, association secretary, predicted that greater use will be made of the northern route this year than ever before. He feels Churchill might even be used for inter-provincial trade.

The association has set an objective of 5,000 tons of freight freight last year the amount of freight unloaded at Churchill inward-bound was negligible.

In outward cargoes, the association hopes to handle close to 10,000 tons of freight in 1948. In 1947 season, Churchill acted as the clearing place for approximately 5,000 tons of freight.

Need for feed grains in other parts of the country is expected to be met by a large amount of grain being shipped from the provinces can be fostered, Mr. Eliaison said it might be.

WRIGLEY PAGED FOR NINE STICKS

BERLIN, May 6.—(Reuters)—The Berlin public has again been amused by the antics of Winston Churchill, who is in Berlin on a visit to the Schenck Palace.

possible to ship feed grains to the north. In return, the north would be able to ship its surplus to the south.

Mr. Eliaison said that the Hudson Bay Route Association is available for export but that the "more extensive studies" are being made in the north.

Need for feed grains in other parts of the country is expected to be met by a large amount of grain being shipped from the provinces can be fostered, Mr. Eliaison said it might be.

BACK IN 1911, Pat Hurley lost track of his brother Billy. He believed Billy was killed in the Mexican War. Pat went on to become secretary of war in President Hoover's cabinet and U.S. ambassador to China. But Billy Smith, a 65-year-old ranch hand in Dingville, Calif., now says he's Billy Hurley, and that he always was. The gray-haired farm worker, left, telephoned Patrick J. Hurley, right, and the ex-war secretary says he's "satisfied" it is Billy.

Agriculture Meet Delegates Named

EDMONTON, May 6.—(CP)—The Canadian Association of Agricultural Producers has named its delegates to the 1948 National Conference of Agricultural Producers.

The delegates include: J. H. Wood, president of the Saskatchewan Co-operative Producers; Roy Marler, president of the Alberta Federation of Agriculture; George McConnell, vice-president, Manitoba; Paul Elevator, Ontario.

Woman Freed Of Any Blame For Knife Killing
KAMLOOPS, B.C., May 6.—(CP)—A Supreme Court jury yesterday acquitted Mrs. Cecilia Wilson, 65, of the charge of murdering her 14-year-old daughter, June, last Sept. 14.

Mr. Justice J. G. Wilson discharged Mrs. Wilson from custody when the jury also acquitted her of manslaughter.

Robertson died of death from a leg wound which the crown contended was suffered in a scuffle. Defence counsel argued the wound might have been self-inflicted accidentally. Robertson had been paring his nails with a jack-knife prior to the outbreak of an argument.

Winnipeg Ousts Big-Time Gambling
WINNIPEG, May 6.—(CP)—Municipal Inspector Peter Caffery said yesterday that drives by Winnipeg morality squads have forced out-time gambling out of the city.

Charged by the inspector at court yesterday resulted in \$1,450 in fines levied against offenders of the liquor control and gambling house acts.

Inspector Caffery said there had been a sharp decline in bootlegging.

Joint U.S.-Canada Defence Talk Seen

Forrestal Flying to Ottawa
For Weekend Parley

WASHINGTON, May 6.—(BUP)—Joint defense of the North American continent against air attack is a probable point of discussion when Canadian and American defense chiefs get together in Ottawa this week-end. Defense Secretary James Forrestal leaves here Friday to fly to Ottawa for a conference with Canadian Minister of Defense Brooke Claxton.

Forrestal's aides said his visit is purely unofficial. He is not taking a military staff with him. But knotty problems of joint defense are sure to come up for discussion between the two armed forces' chiefs. It was said.

Some of these are:
1. Strengthening of a chain of air bases across Alaska, Northern Canadian and Greenland. American planes now have the right to use Canadian airports at Fort Churchill, Edmonton, Fort Nelson, Kitikogit, Sawmill Bay, and Cambridge Bay. They even use them as far north as Resolute Bay and Eureka Sound.

2. Co-operation in development of a chain of radar stations, fighter bases and fighter control centres across the top of the world.

3. Collaboration in experiments with the latest type jet aircraft and bombers flying in Arctic regions.

4. Exchange of research information on weapons of common interest.

5. Standardization of arms, equipment, organization and training to the armies of the two nations.

American army research units have been conducting cold weather tests in the establishment of joint weather reporting stations.

The co-operation is being carried through the U.S.-Canadian joint military staff based on defense established in 1946.
